Blood Glucose Monitoring System

Small and stylish

Slimline design
Easy read backlit screen
Accurate*

*Meets ISO 15197:2013 Standard

Welcome to the Caresens N POP Blood Glucose Monitoring System

Thank you for choosing the CareSens N POP Blood Glucose Monitoring System. The system provides you with rapid and convenient blood glucose *in vitro* (i.e., outside the body) diagnostic monitoring. You can obtain accurate results in just 5 seconds with a small (0.5 μL) blood sample.
